LIONVEST TRADING (UK) LTD

VOLUME 1, ISSUE 3

WINTER 2010 / 11

LIONVEST GAIN FSC COC

Lionvest are proud to announce that they have now completed the application process and been approved to hold FSC Chain of Custody certification. This exciting new step has been borne from an increasing trend in the marketplace, to demand certified flooring for many major projects, especially those in the public sector.

We like to think of ourselves as a forward thinking company, and, whilst we have been purchasing flooring from factories that are, themselves, FSC certified, for a number of years, without actually holding Chain of Custody ourselves, we have not been able to sell on as certified, limiting the worth of purchasing from such responsible sources.

Our Brand name for our FSC products will be:

TRUSTWOOD

As of Winter 2010/11, Lionvest will now be offering our customers, current and new alike, the opportunity to purchase FSC flooring from us, alongside the current Non FSC lines. Our FSC lines will include some of the most popularly specified solid flooring products, our award winning engineered Ekowood range and a variety of newly developed engineered lines in a variety of species.

We will welcome FSC certified enquiries and will, as usual, be pleased to source to any requirements, but will also, from January 2011 be carrying FSC certified stock:

- * 130mm Solid Oak lacquered
- * 200mm Unfinished solid oak
- * 200mm Lacquered solid oak
- * Ekowood Oak 3 Strip

Many further lines to follow! Please enquire for further

details.

Lionvest - FSC C044122

Do you know we offer Plywood?

You may not be aware that Lionvest

are longstanding Plywood agents as WELL as Flooring distributors. For many years we have built relationships with many factories, firsthand, and

have the capacity to offer against any volume Plywood enquiry you may have.

- Hardwood Plywood
- Polyester Plywood
- Film faced Plywood
- Blockboard
- Gluelam

Our brokerage service can extend to many specifications, species,

grades and countries of origin. We can offer from landed stocks OR on a forward order basis.

We would be very pleased to speak with you on this.

EKOWOOD NEW *5G* - CLICK

Lionvest are really proud to announce an innovative new product to add to the award winning, engineered, Ekowood range that they exclusively offer in the UK.

The EKOLOC 5G range utilizes an entirely new technology which allows locking to be automatically obtained during folding. The flexible tongue enables installation in one easy and single action. This benefits the installer by reducing installation manpower AND requiring far less time for each fitting. The tongue bends and locks

into place when snapped together. The locking is instant and occurs automatically with a *click* when the panel is folded down.

The bristle tongue is designed with a rigid outer part and several flexible inner protrusions that creates a prelocking tension. This feature is used to obtain a strong lock and to overcome any production tolerances. The floor, with this profile, can be very easily disassembled, which enables replacement of any boards simply and cleanly. This is suitable as a Floating or Glue Down system.

We currently carry the following species in 3 Strip construction:

White Oak, Walnut, Merbau, Maple & Steamed Beech.

The 1 Strip construction is currently available in **Walnut** but the range will increase quickly.

Ekowood and Valinge have signed a global agreement to give the right to produce and market the 5G range as an original and exclusive product..

“ Three phrases that sum up Christmas are: Peace on Earth, Goodwill to all Men and Batteries not Included! “
Dick Gregory

LIONVEST SAMPLE BOXES

Lionvest really are proud of their range of flooring. However, of course, for new customers, (and sometimes established ones!) having such a wide range of products can be confusing when trying to order samples of the most popular, best selling products of the portfolio. So we have put together, special sample boxes, in attractive pine display units.

The Lionvest ranges circulate around our Solid, Engineered, and 20mm Multifloor structural engineered products. A good spread of each of these categories have been included in the boxes. They are smart enough to display in a showroom, and organised enough to give our buyers a straightforward overview of the whole Lionvest flooring portfolio.

Please do request if one may be of special interest to you.

Christmas Opening Hours

Lionvest will be closed over the Christmas period, however, emails and faxes will be regularly checked and so please do contact us throughout this holiday if you require contact:

Fax: 01273 453900 / 901
